Legal Note: All climbing is very dangerous & always at your own risk. Nobody is forcing you to climb. You choose to climb, so choose to go home before the risks become too high. Remember even small injuries can take 6 weeks to heal. No responsibility for inaccurate or incomplete information will be accepted by the scribe or Mountain Club of South Africa. The landowners accept no liability at all. Climbers take full responsibility for themselves at all times. Fixed protection will become unreliable, loose rock is common & solid rock becomes loose. RD writers make up most of the information, with a beer or wine or whiskey, at the computer. This RD is only a guide & is no substitute for experience, training, common sense & a touch of caution. So, you are on your own...take care!

Note from the Scribe: It took consistent effort, time, work & organization to get this guide ready for your pleasure...for free! Thus, please respect that all the information & photographs are strictly Copy Righted. You are more than welcome to print out, e-mail or link to a web page this guide in its unchanged format, with logos & all information intact.

As this is a web-based guide it can be considered a continual work in progress. It is easy to change. So please send missing details, corrections, additions & adjustments to
